DGNB – THE KNOWLEDGE PLATFORM FOR SUSTAINABLE BUILDING

Sustainability is one of the prevailing issues when it comes to growth, efficiency, and future viability. Therefore, companies, cities, and municipalities increasingly focus their strategies on sustainable development.

As a central knowledge platform for sustainable construction the DGNB offers its entire expertise to a broad professional audience of the construction and real estate sectors, and beyond.

DGNB

Deutsche Gesellschaft für Nachhaltiges Bauen
German Sustainable Building Council

THE DGNB SYSTEM

The DGNB System focuses on the holistic examination of the entire life cycle of a building or a district. As a second-generation system, the DGNB Certification System revolves not only on ecological aspects but the outstanding fulfilment of sustainability criteria from six quality sections: environmental, economic, socio-cultural aspects, technology, process work flows, and site.

International Application

A key factor for the success of the DGNB System is its unique selling point: the adaptability and flexibility which makes the system perfectly suited for use in a wide variety of countries.

English-language certification criteria, based on European norms and standards, can be adapted quickly and easily by DGNB Auditors and Consultants to respond to local conditions. In doing so they support integrated planning, assure quality during the construction process, and promote innovative building concepts.

THE DGNB ACADEMY

DGNB Academy provides professionals with precise tools and up-to-date knowledge to strengthen their skills through flexible and well-structured educational programmes

Our Vision

The vision of DGNB Academy is a more sustainable built environment shaped by highly qualified professionals and stakeholders capable to apply the principles of sustainable construction to contribute to the global sustainability goals.

Our Mission

The DGNB Academy is committed to address the future challenges of sustainable construction by

- making DGNB expertise available to a broad range of professionals
- meeting the specific needs of the different stakeholders with tailored training solutions
- providing experts with tools for their professional growth
- making DGNB knowledge available for the application of the DGNB Certification System

THE DGNB ACADEMY

The DGNB Academy offers excellent training opportunities for professionals to obtain expertise in the DGNB System and current approaches of sustainable building. Our DGNB Trainers play a key role by making this happen.

DGNB Courses

- **DGNB Consultant Training (Buildings)**
- **DGNB Consultant Training (Districts)**

DGNB CONSULTANT TRAINING

Highlight your expertise in sustainable building and the DGNB System

The DGNB Consultant training is targeted to professionals in the construction and real estate sectors, and related fields.

The training includes a wide variety of methods, such as workshops, group sessions, and a practical assessment of DGNB criteria.

Curriculum

Delivered by licensed DGNB Trainers, the course provides detailed knowledge of the DGNB Certification system and DGNB criteria. Participants gain a thorough understanding of how the criteria are assessed and the overall score is calculated.

The course format is suitable for a maximum of 30 participants.

Qualification Requirement

- Passing the DGNB online exam

Participants meeting the eligibility requirements and take part in this training will receive a certificate of attendance, which specifies the acquired DGNB know-how.

Participants of the 3-day training, have the possibility, but are not obliged to take the DGNB online exam. To qualify as DGNB Consultants, participants shall additionally take and successfully pass the online exam, *offered directly and exclusively by the DGNB.*

DGNB Consultant Training – BUILDINGS

Format

Duration of training course: 3 days

DGNB ACADEMY – INTERNATIONAL FRAMEWORK

The DGNB Academy offers application-oriented and tailor-made educational programmes to respond to the growing global markets in sustainable building.

As DGNB Trainer you can work together with DGNB Academy Partners to meet the needs of the local built environment professionals.

Cooperation Framework

THE ROLE OF DGNB TRAINERS

What DGNB Trainers do

By holding a licence as DGNB Trainer you play a key role in our international cooperation framework. You make the DGNB know-how available to the local audience by delivering the DGNB Courses.

More important, you become a leader in the field and help shaping a better built environment by inspiring and encouraging sustainability in the participant you interact with.

Who can commission DGNB Trainers?

- Official DGNB Academy Partners
- The DGNB

Who should become a DGNB Trainer?

Licensed and experienced DGNB Auditors seeking to lead in the field of sustainable building

WHY TO BECOME A DGNB TRAINER?

Take the lead in promoting sustainable building

Enjoy the Benefits

- Use the exclusive logo for official DGNB Trainers and show your commitment to sustainability

DGNB Trainer

Title can be used for communication

- Highlight your expertise in the DGNB know-how and be recognized by local DGNB Academy Partners
- Expand your portfolio of services with a minimum investment
- Help to inform stakeholders, inspire best practices, and transform local policy
- Benefit from the networking opportunities of the DGNB Community
- Meet the needs of local markets with tailored expert knowledge and promote a holistic, process-oriented and performance-focused assessment of buildings and districts
- Join our pool of experts and support sustainability and the DGNB Certification System with your expertise
