

Fee structure: ESG Verification for EU Taxonomy

In general, the fees cover the entire process of the verification by the DGNB, including one verification cycle. For each additional verification cycle, an additional 50% of the net verification fee is charged. The verification can only take place once all fees have been balanced.

The fee consists of the application fee and the verification fee. For already certified DGNB projects, the application fee is waived and only the verification fee is payable. If several projects are registered at the same time, the registration fee is only due once. The projects must then be submitted collectively.

Registration fee	
DGNB member	non-member
750 €	1.500 €

Verification fee for DGNB members			
Fee per building	New Construction	Renovation	Acquisition and Ownership
	2.500 €	2.500 €	1.500 €

Verification fee for non-members			
Fee per building	New Construction	Renovation	Acquisition and Ownership
	3.000 €	3.000 €	2.000 €

All costs listed exclude value-added tax. The discount for members applies if the project applicant is a DGNB member or a member of an international partner organization of the DGNB.

Notes for submitting

Consultancy fees are not included in the fees structure above. The fees for consulting services are highly dependent on the project. Please coordinate these with your consultant. Your advisor will also inform you of any additional costs that may incur.
